

The Moors at Arne Project

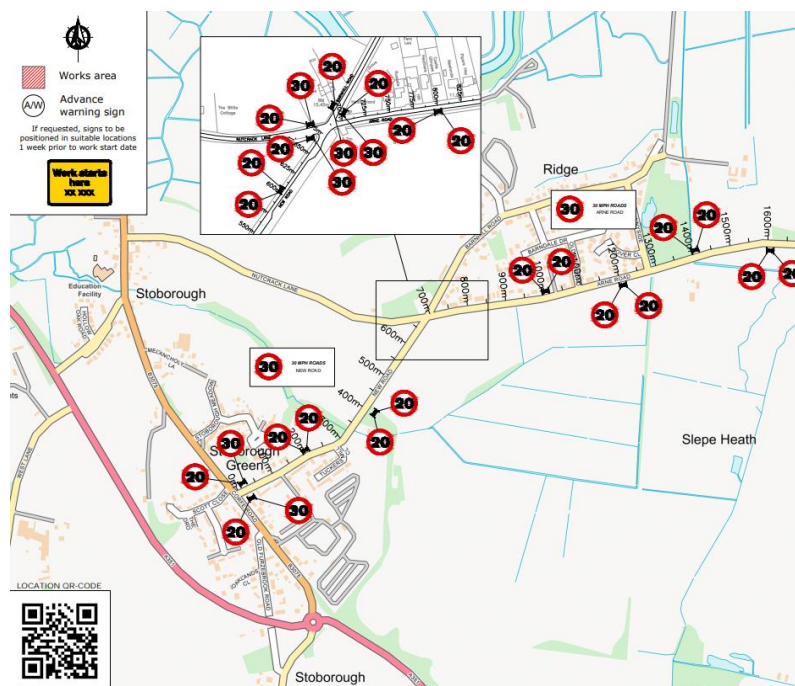

Notice of temporary 20mph speed limit & HGV diversion route

In preparation for the start of construction activities on The Moors at Arne site, a temporary 20mph speed limit for all vehicles will be introduced along the construction traffic route on 12th June. Works will start soon after this. The 20mph speed restriction will apply to all of New Road and to Arne Road up as far as the site entrances. Please see map below.

A diversion route for HGV traffic will take effect at the same time with all construction traffic prohibited from accessing the site from Soldiers Road, West Lane or Nutcrack Lane.

These changes are being implemented as part of our Construction Traffic Management Plan and have been authorised by Dorset Highways.

These measures are essential to maintain safety for all road users whilst minimising congestion on local roads. The measures will be in place year-round for the duration of the project which is expected to be completed in 2025. Thank you for your patience during this time.
