

## The Moors at Arne Project

### HGV Entrance works – Arne Road

28 June 2023

Preparations are continuing for the start of main works and we wanted to keep you informed as we enter the next phase which will involve preparing the site for heavy goods vehicle (HGV) deliveries.

HGVs will enter the site via a new entrance which will be located by the first cattlegrid as you travel from Ridge towards Arne. For HGVs to cross the ditch safely, a concrete slab will be constructed across the ditch. A culvert will be laid inside the ditch before the slab is constructed. This is a large pipe which will allow water to continue to flow under the slab when the ditch collects water during periods of heavy rain.

This piece of work is expected to commence on 29 June and should be completed by 12 July. During the construction of the concrete slab, it may be necessary to implement temporary traffic controls on Arne Road. We apologise in advance for any disruption during this time.

Once the project is complete, the concrete slab and culvert will be removed and the ditch returned to its natural state.

Thank you for your patience as we continue to prepare for site deliveries.

If you have any queries about this work please get in touch via [arne@kier.co.uk](mailto:arne@kier.co.uk) or call Kier's Public Liaison Officer on 07743 985714.
