

## The Moors at Arne Project

### Delivery of site cabins

**17 August 2023**

As the Moors at Arne project gathers pace, we will soon be taking delivery of the larger site cabins. These units will remain on site for the remainder of the project. They will replace some of the existing cabins.

The site cabins are due to arrive during the week commencing 21 August. Due to their size, they're classed as an 'abnormal load'. Approximately fifteen abnormal loads are expected during the week. A guide vehicle will lead each of the loads into site.

Alongside these, the temporary foundations for the modular units and a crane to position the units will be delivered during the early part of the week ahead of the cabins.

The usual construction traffic management plan will be in place with the 20mph speed limit, HGV diversion route and communications between the traffic marshal on New Road and the site team.

We're sorry for any disruption or delays you may experience next week, but thank you for your patience as we deliver the Moors at Arne project.
